GPS ZONE

An Advanced & Innovative Vehicle Tracking and Fuel Management System

Vehicle Tracking System-Live Maps

Falcon AVL

Our solution for Automated Fleet Management

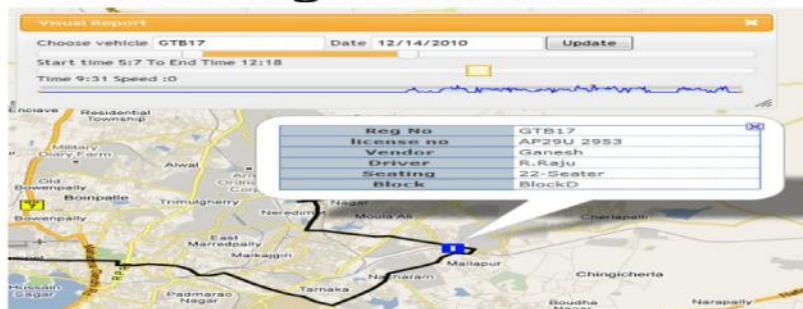

Gain a Major competitive advantage

Automatic vehicle location is a powerful tool for managing fleets of vehicles from service vehicles, emergency vehicles, construction equipment to public transport vehicles (buses and trains). It can also be used to track mobile remote assets such as construction equipment, trailers, and portable power generators. The vehicle's location is determined using GPS. The tracking data is then transmitted using cellular or radio connection from the vehicle to a radio receiver, satellite or nearby cell tower

Falcon AVL Benefits

Detailed log of vehicle location

Livetrack

Custom Routes and alerts

Geofence Alerts

Vehicle Tracking System-Reports

Reports and Analysis

Summary Report

Total Idle time
Total running time
Total distance covered

Route Report

Route start time
Route end time
Ontime arrival (yes/no)

Speed Report

Times where vehicle exceeds given speed
Location where vehicle exceeds given speed
Total Time spend in mileage efficient speed

Stops Report

Stops greater than a set duration
location of the stops

On time Report

Which of your vehicles are late
Which of your vehicles left on time

Trip Report

No of trips per day
Distance covered per trip
Total distance

Customized Reports

Reports can be customized as per the clients request. it can be a collection of existing reports or something totally new.

SMS and Email Alerts

Stop Alert

Stopped for more than a given time

Speed Alert

If the vehicle speed exceeds a set speed

Geofence Alert

Vehicle enters or exists an office
When vehicle leaves a city or town

Recieve Alerts via Email

choose what alerts you want via email.

SMS alerts

SMS alerts would cost extra unless client has his own gateway

Vehicle Tracking System

Falcon AVL

Add-ons

Accessory	Description	Reports
LCD Screen with keypad	With 2 way communication via gprs , and a alpha numeric LCD display, it can be used for dipatch/taxi cab / supply chain applications	Messages sent , recieved
Taxi fare Meter	Select taxifare meters can be connected directly to the device to capture trip details	Trip details , distance traveled , idle distance , cost of the trip
Vehicle Immobilizer	Connect this accessory to the fuel supply line and immobilize your vehicle via SMS in case of theft	
RFID/HID card readers	Attendance applications for schools and corporates , integrates with existing card infrststructures	People entering per vehicle People existing per vehicle

Ease of Access

FalconAVL system can be used from anywhere , as long as there is an internet connection and a modern browser

Web browser on PC

The screenshot shows a web browser displaying the Falcon AVL Basic Reports page. The page has a blue header with the Falcon AVL logo and the text 'Basic Reports'. Below the header is a table with multiple columns, including 'VEHICLE', 'DATE', 'TIME', 'LOCATION', 'SPEED', 'ACC', 'X', 'Y', 'Z', 'STATUS', 'GPRS', 'GPS', 'GSM', 'GPRS', 'GPS', 'GSM', 'GPRS', 'GPS', 'GSM'. The table contains several rows of data, including vehicle IDs, dates, times, and locations.

Mobile Phone

Scalable and future proof

Developed completely in house, giving you the following benefits

Complete customization
99.9% uptime guaranteed
scalable from 10-1000 vehicles per server
world class opensource spatial aware database
Latest technology used , for future proofing

Verticals

Corporate Fleet

Employee safety
Distance calculation for billing
TMS integration
Attendance/Occupancy
Help desk

School Fleet

Student attendance
SMS parents for pickup and drop
SMS in case of emergency
Speed alerts for safety

Taxi Fleet

Dispatch and call center system
Meter integration
Daily billing reports
SMS Alerts for Clients and drivers

High Value Assets

Usage reports
Location , status , speed alerts (SMS)
Covert surveillance
Shock and environment proof enclosure

Supply chain

RFID tagged Cargo
Integration with Existing software
Two way text messaging via GPRS
8 hour battery incase of powerloss

Personal Use

Vehicle Immobilizer for theft prevention
Small compact package for easy installtion
SMS Query option

Wealth Zone Technologies

HYDERABAD,

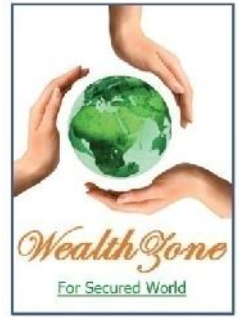

+9140 64641245

www.wealthzonetech.com

E Mail: info@wealthzonetech.com

Hardware

- F1000 (Basic)

- Simple hassle free installation
- Internal Antenna
- Panic Button
- 4 hours battery

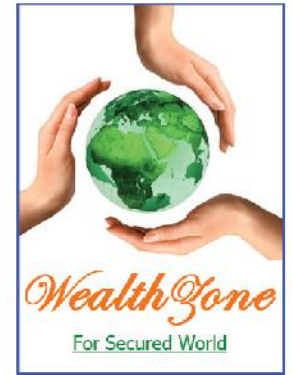

- F2000 (Robust)

- Front panel buttons for integration
- External antenna
- IP 66 water resistant body
- 8 hours battery

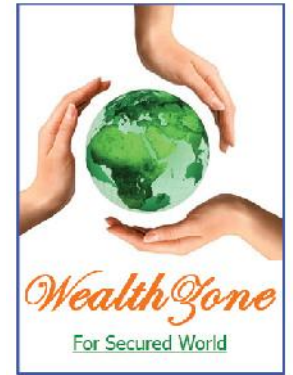

Software

- Falcon AVL system
 - ASP .NET Web based software
 - Open Source Spatial Database
 - Open protocols , via Webservices for integration with existing ERP / TMS (transport management system)
 - Uses Google maps or clients vector maps

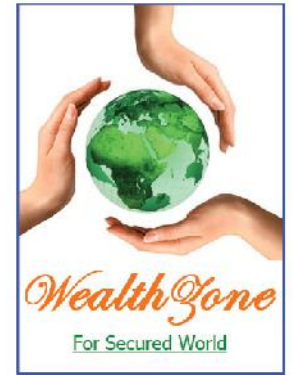

Integration with existing systems

- Location based :
 - Once all your offices/warehouses etc. are mapped , we can provide real time alerts as to which vehicle has left or arrived at which location
- Front panel based
 - SMS/Email can be sent to concerned parties once a button is pressed on the front panel (only for F2000 units)
- Report based
 - What ever data your existing reports need will be sent via published web service which you can use on demand.

Features

- -SMS ALERTS
- -ONLINE NAVIGATION (GOOGLE MAPS)

Current users

- Mahindra Satyam ,
- Deloitte .
- Dell
- Factset

FUEL SOLUTIONS ZONE

An Advanced & Innovative Fuel report Management System

www.wealthzonetech.com

FUEL SOLUTIONS ZONE

An Advanced & Innovative Fuel report Management System

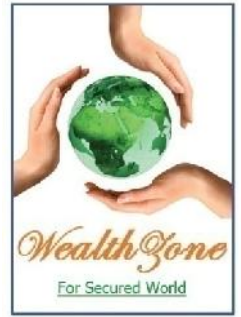

Hardware

Traqmate100 F

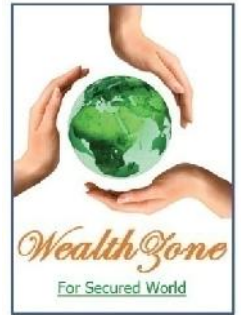

Features:

- *Real time vehicle location tracking*
- *Real time vehicle status monitoring (Ignition/*
- *Engine & Speed)*
- *Vehicle driving track replay*
- *Geo-fence (Leave area / Enter area)*
- *Mileage statistics*
- *History data storage (Last 3 Months)*
- *Stop/Recover Engine (Ignition/Fuel)*

Hardware

Traqmate100 F

Features:

- *External GPS/GSM antenna*
- *Build-in backup battery (Upto 6 Hrs)*
- *10. Blind area data supplementary uploading*
- *(4 MB Internal memory)*
- *11. Support Fuel Monitoring*
- *12. Waterproof*
- *13. Internal Relay (To support immobilization on unauthorized device removal)*

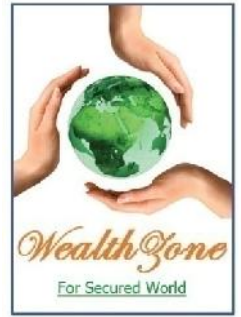

Hardware

Traqmate100 F

Alarms:

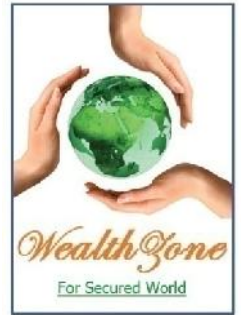

- *SOS Alarm (Emergency Alarm)*
- *Over speed Alarm*
- *Geo-fence Alarm*
- *Device main power cut Alarm (Battery Backup)*
- *5. GPS Antenna Temper Alarm*

Hardware

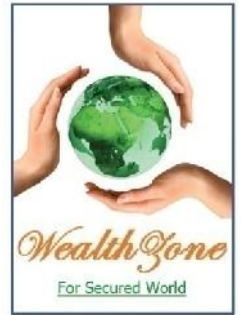

Traqmate100 F

- Reports:
 - *Summary of History Report*
 - *Distance Report*
 - *Ignition Report*
 - *Idling Report*
 - *Stoppage Report*
 - *Over speeding Report*
 - *Working Hour Report*
 - *Trip History Report*
 - *Alarm/SMS log Report*
 - *Fuel Report*

Traqmate 100 F

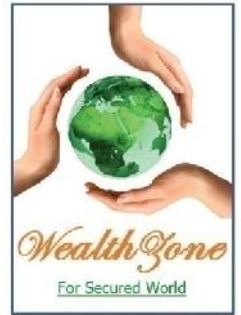

Technical Specifications

Dimensions:	123(L)× 83(W)× 37(H)mm
Weight:	350g
GSM:	850/ 900/ 1800/ 1900 MHz
GPRS:	Class12, TCP/ IP build in GSM Module
GSM Antenna:	External
GPS Channels:	Latest SIRF-Star III high sensitivity chipset (20 Channels)
GPS antenna:	External
Tracking sensitivity:	-159dBm
Acquisition sensitivity:	-144dBm

Traqmate 100 F

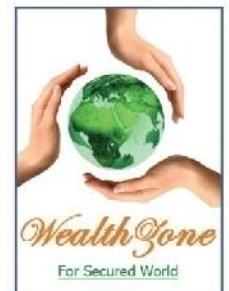

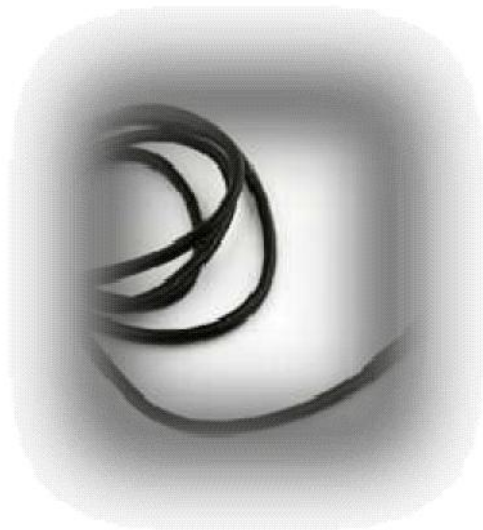

Technical Specifications

Locating time cost	
Hot start:	<1 sec(open sky)
Warm start:	<35 sec
Cold start:	<45 sec(open sky)
Application environment	
Operating temperature:	-20°C to +55°C
Operating humidity:	5% to 95% non-condensing
Battery:	3.7vDC/850mAh
Monitoring range:	5 M
Working voltage/current:	10-36 vDC/1.5A
Certifications:	--

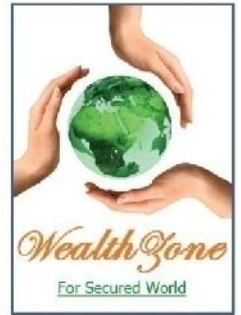

FUEL SOLUTIONS ZONE

An Advanced & Innovative Fuel report Management System

Traqmate Fuel Kit Sensor

Technical Specifications

Features

Real time vehicle fuel monitoring
Measurement of fuel drain/drop in liters

Technical Specification

Type:

Resistive

Operating Voltage:

Upto 30v DC

Operating temperature:

25°C to + 60°C

Output Voltage:

0 – 5 v DC
