Schools' Zone

An Advanced & Innovative School Management System

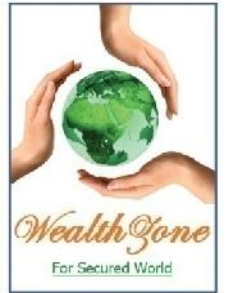

www.wealthzonetech.com

The Making Of Schools' Zone

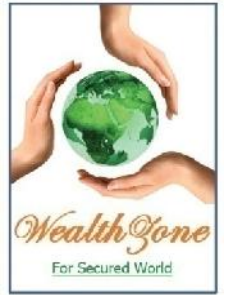

- Wealth Zone, a group of professionals from different walks of technology, management domains aspiring to create an 'unique' answer to the challenges posed by modern day institutional management was formed.
- A complete process aspect study of the schools were studied and documented over a period of three years.
- The shift of ideas in managing patterns and manageability of the institutions were closely analyzed

The Making Of Schools' Zone

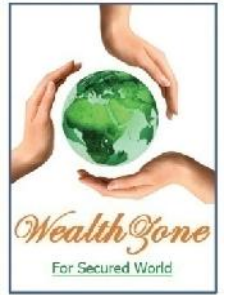

- The scene was making a steady shift and the software prevailing were lacking the efficiency tackling these shifts and drifts
- With the study Wealth Zone did, it was understood that the way modern day school management solution to be derived was 'Urgent' and 'Sensible'.
- So the entire plan was rolled out keeping in mind – software requirements, best technologies and most modern statistical tools.

The Making Of Schools' Zone

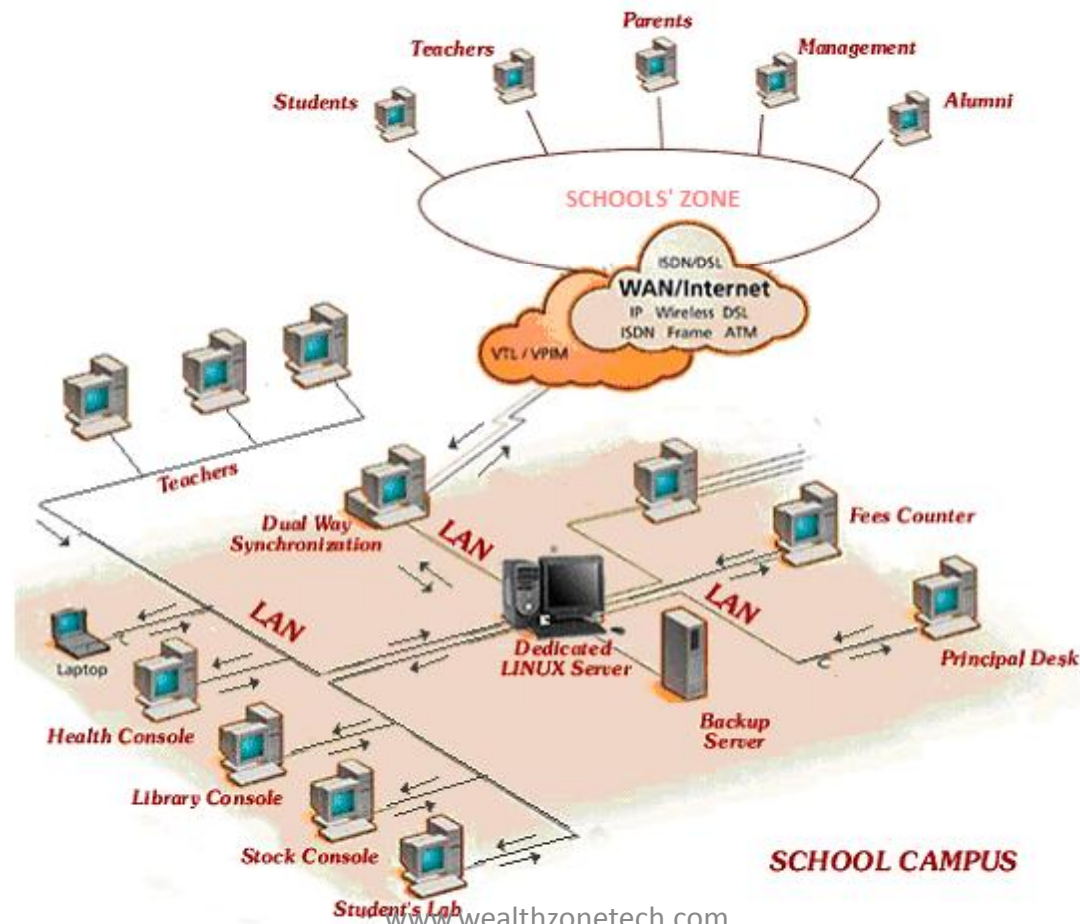

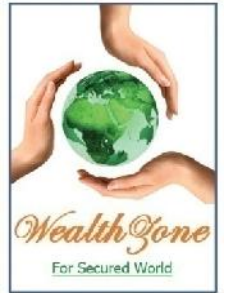

- Wealth Zone also considered including research works of best educationalists in the world to benefit the decision making strong and most effective.
- Every module was designed carefully and flawlessly.
- It is not just a piece of software. It is a framework
- It is collection of most valuable thoughts put to work to simplify the labor of management

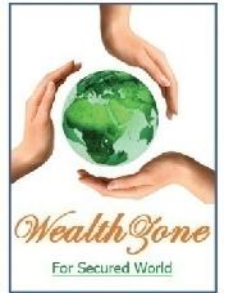

The Making Of Schools' Zone

- We want creative people like administrators, teachers - to involve in providing betterments for the education sector by reducing amount of time spent on administrative tasks and monitoring.
- Let those tasks be taken by 'Schools' Zone'.
